Nairobi, Kenya

SUMMARY

Final-year Biochemistry graduate uniquely positioned at the convergence of life sciences, AI engineering, and quantitative finance. Engineered full-stack bioinformatics platforms, back-tested algorithmic market models to elite WorldQuant Gold tier, and executed molecular docking research against fungal pathogens demonstrating rare capacity to operate across the full stack from wet-lab theory to production-grade software.

EXPERIENCE

AI Front-end Engineer

Present

Flyrank AI

- Designed user-facing software components and integrated backend APIs to create fluid, human-centric application experiences.
- Streamlined development cycles by integrating modern AI engineering practices and front-end frameworks.

IT Infrastructure Intern

20/07/2024 - 20/12/2024

Dejavu Technologies

- Diagnosed and resolved hardware/software incidents across multi-site infrastructure, reducing average ticket resolution time through systematic fault-tree analysis.
- Delivered technical support for network topology management, gaining applied proficiency in IT systems administration and enterprise troubleshooting workflows

Drug Discovery Simulation Analyst

LifeArc Biology Research Job Simulation

- Applied multi-parameter data analysis frameworks to rank and filter drug candidate compounds, simulating real-world pipeline attrition decisions under LifeArc's translational research methodology.

EDUCATION

Biochemistry & Molecular Biology

University of Nairobi - B.Sc

(Completed June 2026; Graduating Sept/Dec 2026)

Baricho Boys High School

B+ (72)

CERTIFICATES

Python Programming Essentials (OOP)

Martial School of IT

AI Technical Foundation

Qualcomm Academy

Introduction to Computer Science

Saylor University

Gold Level - WorldQuant BRAIN

WorldQuant

Claude 101

Anthropic

SKILLS

- Programming & Web:** Python, JavaScript, React, Tailwind CSS, Databases, API's, Node.js, Next.js, Git/GitHub, Deployment, Agentic Engineering (Claude, Codex, Copilot), AI engineering.

LANGUAGES

English Swahili Chinese – basic
